The Call of the Wild

From today's vantage point it can be denied that the confidence in the abilities of globalism, mobility, and cosmopolitanism to illuminate cultural signification processes of our time has been severely shaken. In the face of this crisis, a key concept of this globalizing optimism as World Literature has been for the past twenty years necessarily is in the need of a comprehensive revision. World Literature, Cosmopolitanism, Globality: Beyond, Against, Post, Otherwise offers a wide range of contributions approaching the blind spots of the globally oriented Humanities for phenomena that in one way or another have gone beyond the discourses, aesthetics, and political positions of liberal cosmopolitanism and neoliberal globalization. Departing basically (but not exclusively) from different examples of Latin American literatures and cultures in globalized contexts, this volume provides innovative insights into critical readings of World Literature and its related conceptualizations. A timely book that embraces highly innovative perspectives, it will be a mustread for all scholars involved in the field of the global dimensions of literature.

THE INVISIBLE MAN

The marriage of philosophy and fiction in the first third of Spain's twentieth century was a fertile one. It produced some truly notable offspring—novels that cross genre boundaries to find innovative forms, and treatises that fuse literature and philosophy in new ways. In her illuminating interdisciplinary study of Spanish fiction of the "Silver Age," Roberta Johnson places this important body of Spanish literature in context through a synthesis of social, literary, and philosophical history. Her examination of the work of Miguel de Unamuno, Pio Baroja, Azorin, Ramon Perez de Ayala, Juan Ramon Jimenez, Gabriel Miro, Pedro Salinas, Rosa Chacel, and Benjamin Jarnes brings to light philosophical frictions and debates and opens new interpersonal and intertextual perspectives on many of the period's most canonical novels. Johnson reformulates the traditional discussion of generations and "isms" by viewing the period as an intergenerational complex in which writers with similar philosophical and personal interests constituted dynamic groupings that interacted and constantly defined and redefined one another. Current narratological theories, including those of Todorov, Genette, Bakhtin, and Martinez Bonati, assist in teasing out the

intertextual maneuvers and philosophical conflicts embedded in the novels of the period, while the sociological and biographical material bridges the philosophical and literary analyses. The result, solidly grounded in original archival research, is a convincingly complete picture of Spain's intellectual world in the first thirty years of this century. Crossfire should revolutionize thinking about the Generation of '98 and the Generation of '14 by identifying the heterogeneous philosophical sources of each and the writers' reactions to them in fiction.

Lord of the Flies

El amor, locura y muerte fueron la constante en la vida del uruguayo Horacio Quiroga. Estos temas se ven reflejados en su obra, aunque es la muerte la constante en esta serie de 18 cuentos de la que quizá es su obra más conocida. Cuentos de amor de locura y de muerte (publicado por vez primera en 1917) gira en torno a estas emociones, aunque la muerte es el hilo conductor, como lo fue en la propia vida del autor. Apegado a la corriente del Modernismo, Quiroga escribe sobre temas que abarcan aspectos extraños de la naturaleza teñidos de horror, enfermedad y sufrimiento para los seres humanos. Lo extraño y desconocido está ahí, asechando la vida de los desafortunados. Narraciones como *La gallina degollada*, *Los buques suicidantes*, *El almohadón de plumas*, *A la deriva*, *La insolación*, *La miel silvestre*, entre otros, enlazan la tragedia donde el autor describe con una prosa sencilla, elocuente y sugestiva al hombre y el miedo frente a las situaciones trágicas e inesperadas que determinan su existencia. En *Cuentos de amor de locura y de muerte* la tragedia del ser humano es la tragedia de la vida misma.

My Book of Number Games 1-70

When Edgar Allan Poe's only novella was first published in 1838, the reviews were slow in coming and dismissive when they arrived. The book's failure left Poe in such dire financial straits that he even accepted a job at one of the magazines that had panned it. But *The Narrative of Arthur Gordon Pym of Nantucket* has since become one of his most influential works: Baudelaire translated it, Paul Theroux read it out loud to Jorge Luis Borges, Jules Verne wrote a sequel to it, H. P. Lovecraft drew on it in creating his own tales of the Antarctic . . . Ostensibly, it's a classic adventure story about a young boy who runs away to sea and encounters all the classic scenarios: mutinies, storms, shipwrecks, ravenous sharks, hostile natives. And Poe drew on many contemporary accounts of exploration in the South Seas to give his story a sense of verisimilitude. But there are far deeper currents at work in the book than mere adventure: elements of the supernatural as they near the South Pole, evocations of the protagonists' experiences at sea that rival Poe's best tales of horror, and a disturbing ending that continues to stir debate.
